"Prevention and Awareness of COVID-19"*

NYP Nepal Youth Programme

THANK YOU !

Holger Obermann

for you heartfelt support to Nepal Youth Programme !!

NYP Nepal Youth Programme

Ball for the Youth; Youth for the World!!!!

Since December 2019, the entire world has been facing a dreadful, invisible, devastating virus COVID – 19. 213 countries have been affected in less than 4 months. In Asia, all 48 countries are affected by this pandemic.

This is very difficult moment for the people in the whole world. But for the country like Nepal, it seems more difficult, not only because of the risk of virus transmission but also the people, especially the laborers, who earn their living through daily wages. And the lockdown has become a struggle for survival.

The crisis of COVID 19, as well, affected the entire NYP and its development procedure. All the activities are still halted. Children and youth are out of school and out of NYP activities and forced to stay safe.

During the difficult time, it was our responsibility to be there for the needy ones. We are very much happy to have the great back support from Holger Obermann, Franz Beckenbauer Foundation and Foerderverein Jay Nepal Youth Programme e.V. making us able to act during this time.

We think that with positive thoughts, being with and helping each other with emotional and motivational attachment, we will surely come back to the normal days where we can act back again on our task and concepts for the development. On behalf of NYP, I wish for everyone to stay in good health and generate energy to fight against the VIRUS (COVID- 19).

Rajiv Nepali
Chairman

This year we could run our program only till March 2020. Due to the Lockdown and restrictions for several months and fulfilling the responsibility to act against the Corona Virus, we have halted our entire programs from April onwards.

Activities in 2020

Regular football training and workshops on various topics related to the education, life skills and youth empowerment were conducted (till March 2020)

1. Early Childhood Development and Youth Empowerment

Weekly ECD Programs conducted by Miss Prakriti. Children below 10 were guided and entertained with various play way methods to develop their skills and capacity.

2. Ball for Fun

A weekly program “Ball for Fun” conducted. The program was conducted by Arbind Shrestha together with Shrijan Nepali. NYP continues collaboration of Ball for fun program with Paramount boarding school in Kuleshwor and Mount Radiant English Boarding School, Gongabu. Early this year, we had conversation two other schools located inside the valley for introducing the program. But due to the COVID 19, could not take further steps. Hopefully, it will be realize in year 2021.

3. Football Training:

Regular football training for different ages continued. Coach Rajan Nepali and Raju Singh Maharjan’s effort and dedication in developing process is to be appreciated. We thank Mr. Werner Albert for his great support!

4. Prevention and awareness of COVID 19 (Relief package distribution)

In August 2020, as we all are suffering from COVID 19, an Angel spread her hand through Holger Obermann, Franz Beckenbauer Foundation and Foerderverein Jay Nepal Youth Programme e.V. With the dedicated financial support and hearty collaboration, we became able to provide relief package of daily essentials and prevention kits to the children / youth and their families, beside we could still help our partner organization Helpless Children Mother Centre through this package. We will always be grateful to this huge relief during the difficult time.

To continue the initiation of Mr. Holger Obermann, Franz Beckenbauer Foundation and Foerderverein Jay Nepal Youth Programme e.V., NYP will dedicate towards its responsibility through prevention and awareness of COVID 19 workshops from December 2020. The youth will oriented before the program, NYP members/trainers

will travel in different location for the awareness and sharing the prevention measurements through workshops.

Acknowledgments

We would like to take this opportunity to thank the people who have helped to establish the Nepal Youth Program and supported us during the initial stages.

A very special thanks and eternal gratitude to the German support from various individuals and organizations for the immense help that you all have provided.

Heartily thanks to Mr. Holger Obermann, (former ANFA Technical Advisor and Nepal National Football Coach) for being with us and being as the great mentor; helping us to be the part of youth development through sports and education.

Hearty Thanks to Mr. Werner Albert for his support through – out the years. His support did not only help to reach to hundreds of kids and youth, but also created the platform for the youth and the trainers. (Though, He is not with us anymore, he will be always remembered and we keep him deep inside our heart. Thank you Mr. Werner Albert)

We thank Franz Beckenbauer Foundation for the financial support that made us able to fulfill our responsibility towards the social requirement during the difficult times.

Big thanks to Foerderverein Jay Nepal Youth Programme e.V. (Mr. Marc Hoffmann, Mr. Ludwig Voss, Mr. Wolfgang Wayer) for the continuity of the support and believing in us. Your support made us stronger and enhanced our level of confidence being in the youth development.
